Dear Peter

I am writing to thank you for a job very well done by you and your team here at my property just recently.

Although I am sure this is one of the smaller projects your Company has undertaken, nevertheless, the renovation of the barn was carried out with a high degree of competence and professionalism from the outset. Your employees and contractors were at all times helpful and courteous and were a credit to you and your Company.

Please accept my best wishes for your continuing success in the year ahead.

Yours sincerely,

Malcolm Jones.
