Subject: RE: LOCOG SITES

Gary, Marty, Kevin and Jon,

Please find attached a Thank You note from Mike Gibbons of LOCOG. The client is very pleased with our performance and Mike Charles will be going to the UK next week to discuss the possibility of four more displays.

I extend my appreciation to you and your excellent work teams. Thank you very much for your hard work, precision, and patience. It has been a pleasure to work with EDS, Archers and NES, and I hope we are able to continue our business relationship long into the future.

Best regards and thanks again,

Eric Graber
 International Project Manager

Subject: LOCOG SITES

Hi Eric,

Have not heard to the contrary, so assume all the sites were active, and the clients all happy for there 08/08/08 events.

Well done, you can catch up with some well earned rest now

Regards

Kevin Allbrighton

Subject: THANK YOU

Dear Daktronics Team.....

First of all, thank you and thank you to all your colleagues in Brookings. We did it. An extraordinary piece of work in the circumstances, eight screens in something like five months and the last only a week to go.

I think we had to keep the faith on many occasions, certainly we told everybody here that we believed we'd achieve it and I genuinely did believe it, subject to the vagaries of local councillors or other unseen issues. In the end we overcame them as they arose.

I know John & William, in particular, will appreciate all of your efforts as much or more simply because they know what you had to do to deliver. I can say, however, the one of the greatest comfort factors in the whole project process was our belief that we'd selected the right team to partner with to deliver the eight screens. We were right and I think the measure of that is the way your team responded to the issues and sorted the problems.

So thank you again – it's often said that we couldn't have done it without you. That's true, of course, but never more true than in this case. We've been delighted to have got the first eight up and running with you on such a professional and methodically organised basis. So, formally, thank you on behalf of LOCOG.

I'm in Beijing – left as the Opening Ceremony finished and back on Wednesday. I've seen some interesting Live Sites so far but I think we can do better in the years to come! When I get back we'll turn our attention to the next four.....

Best wishes

Mike
