

SEESA REFERENCE -25/03/11

Pete

Please can you pass on my thanks to all your lads here at Bramford, they have conducted themselves in a thoroughly professional manner, maintained the highest standards of Health and safety and executed the installation of the structural and secondary steel members expediently maintaining excellent quality control.

This is not only the opinion of the site team here; we had a visit from 2 of the alliance managers yesterday from Skanska and National Grid who were very impressed with the way the site was set up and the professionalism of your operatives. This visit has resulted in National Grid taking your details and ensuring that you will be included on all future tender lists for structural steelwork and cladding.

Once again many thanks and we will maintain the same standards during the cladding works.

Pat
